

Eleanor – 4 years old

The Art Room

I've done the art room for Max and also little rooms for people to meet in and there are shelves for the guys who make art, and then he could bring the book and make the same art from in the book. There's kind of some red and the red is the heaters. You need heaters so that the room is warm. The shelves have books and the books have the art that I was talking about. There is another shelf with paintbrushes, pens, textas, pencils and some paint. Oh, there are stairs where the Max, guy who makes art, can get in any direction he wants. The bumpy parts are the bumpy easels. There is a sign to let them know that the guy who makes art is from the NCAAC. It's Max, the guy who makes art. He needs all these supplies.

Elias – 5 years old

Meeting Space

The mat is a meeting space. There's a caterpillar and some tassels on the sides. The caterpillar reminds you that you have a caterpillar. The people can sit, some can sit on the outside of the mat and some people can sit in a bunch. And you can also sit on the chairs if you don't have space on the mat. They might use the mats like if you need to get out and have a meeting about something. If there is a fire, you can leave. If there is too much paper, you can put it inside the building because it might be too much, so you could have a meeting about that. Or, you can have a meeting about if there is a fire.

Elias – 5 years old

The Bookshelves

The long across lines are the shelves and the little ones are the books. And some of them are falling [small, slanted lines]. We need to have bookshelves. Because they have so many books. 60 thousand books. The shelves should be green and I just decorated in paint. And there is spots to sit. To read the book. And, no phones. Or computers. All you do is read stuff and see all the pictures.

Frankie – 4 years old

The Café

The purple is where you walk in to get to the café. You look down at the floor. There are toilets. There are rainbows on the cubicle floors. At the end of the purple is the dog flap so you can bring a dog into the café next to the door to get into the café. There are some tables for people to sit down on and have food. You get the food from the counter [black with green and pink dots]. The kitchen is behind the counter with all the food. I put babycino, a bowl of spaghetti and then this one is pizza. On the other side is another cubicle door if you go to the toilet and have a disability. It's different because on a standard toilet it might be tricky if you have a wheelchair. And there is a sign. It says café.

Greyson – 5 Years old

Theatre room

There is a part of the room for puppets and this side is the stage. To put on shows for everybody. The blue is the lights, and the red are the lights to light the stage.

Harriet – 3 years old

The NCAACL needs a lift. It has electricity for the lift. It has three levels. A bottom, middle, top. And it needs lights so it could get extra safety. It needs a little café so if people are hungry when they get there, they have a café. It needs a puppet room. So we can show puppets from children's books.

Harriet – 5 years old

The Outside

I drew the garden. Its on the outside of the building. It's important so you can have a picnic and run around before and after going into the building. There are fairies in the garden and some flowers. And the building is the NCAACL. There is two doors. A little door for kids and a big door for grownups. There's lots of windows on the building which you can see the garden and the outside.

Huxley – 3 years old

The Structure

This is pipes for the building.

Jakara – 5 years old

Café

I've done the café and the red door is where you go to get the food from. There's an outside table if you want to be out in the fresh air. And there's inside tables too. And the yellow door is if you need to go to the toilet, you can go through the yellow door. The colour in the café is where you get to look at the colours. The dots are to make music so because when I go to the café next to pottery, I got an ice-cream and chips and there was music and you can dance. It made me feel like I was going to dance. The persons at the table is just me and dad.

Nicholas – 3 years old

The Café

I did the café. It needs muffins, some lemons, and some lemonade. I'm making the food there.

Nora – 4 years old

Dress up room

I've drawn the dress up room. Those are all the hooks around, and that's a dress up cupboard, and when they click the bell, it comes open by itself. It opens by itself. When they open the door then they see the monster costume then they buy it. There's a little top shelf and some dress ups and they buy it. You can get a unicorn dress up and a monster and a donkey dress up.

Maddie – 4 Years old

Puppet Room

These are some love heart solar panels. This is a shelf with puppets inside. It has 5 wheels so you can move the puppets around. There is a person puppet. They will play with the puppets and stuff but not the solar panels. You can play in the puppet room.

Max – 3 Years old

Café

There are all rainbow lights. All the rainbow lights can go everywhere, they turn off and on. These are a veranda to stop people getting wet when the rain comes down. The dots are for people to step on, so they don't fall down the hole. The green and the blue connect.

Moss – 4 years old

The Dining Table

This is the dining table. One human can work on it and there's wire all through the floor. It connects to the laptop. And the light. The person is red because the person needs blood in their bodies.

Oliver – 5 years old

All of it!

My plan is from the roof. I've got shelves, the green bit. They are for puppets. I've included every space: the kitchen, the toilet, the dining room, the people in the spaces, a café, and there is a theatre. The lines show the stage.

Oliver – 4 ³/₄ Years old

The Outside

There is the green grass. There is a path leading to the door. The 5 circles are the windows and the lines on the roof are solar panels. It doesn't use electricity so that its good for the land by collecting the energy from the sun to power the electricity bulb. The purple is the letter box and a water tank. People can post letters if they want to. The water tank can collect the water going under the ground to the water tank.

Otis L – 4 years old

Dress Up Moon

There is the table and chairs. People sit there. The dress ups live on a shelf. The dress ups go on the coat hangers. The families can come. And the kids too. They get dressed up and cry about the dresses.

Quill – 5 Years old

Theatre room

The black lines show the levels. 2 levels. The bottom level is the place for all the electronics. Under the stage for the electricians to fix things. There are green lights. The theatre is on level 2. These are the drums. There is diamond glass so if a robber is watching the show and sees an instrument that's really cool, if they try to steal it, they can't because there is diamond glass. There are chairs for people who are watching a band or a show. That is an elevator to get to different levels. If you want to get to the top or bottom quickly you can go quickly. The yellow bits are buttons.

Raymond – 5 Years old

Theatre Room

There are chairs in the theatre for the people to sit on. The stage for people to do shows. Lots of shows. There are colourful lights to make it beautiful. The stage has a colourful background; purple, orange, red.

Valentine – 4 Years Old

The Outside

I did some windows. They were circle and square shapes. And I did some stairs. They go all the way down to the blue grass on the outside of the building. There needs to be flowers. There is a back door and the front door is up the steps.

Archer – 5 years old

The Café

This is the seating space. There are paintings on the wall from children's books. There is coffee cups on the tables. There are little chairs for little kids and big chairs for the big people. There is lots of different food at the café. The café is for everybody. There is big lights there, at the top. The light makes red lights.

Aria – 5 years old

The Mat

I wanted to add some windows, and a mat. The window are at the top. At the roof so you can look at the stars. I added black, purple and pink. That's the colour of th mat. It lifts you up by the strings to the windows.

Benjamin – 5 Years old

Orange room – Storage room

The Artist room – Large table

Inside there are some books hanged up and on shelves in case they have to many books. Spare bookshelves and spare alphabet letters to tell which section is which. Spare puppets. It's important in case they run out of too much or have too much.

It doesn't have chairs and the artists that go in put the paper on the giant table and make the pictures, paintings and books on it. This room is for Max because he uses the whole table up when his doing his work.

Camilla – 4 years old

The Puppet Theatre

We need a puppet theatre so people can watch the puppets. There needs to be a bathroom. People are walking to the theatre. The puppets are unicorns, monsters, and kangaroos and cheaters. There is a changing room for when you change puppets.
